

Connect Employee ID to MyBSWHealth

If you cannot see the Thrive365 Requirements tile, you must follow the steps below to link your employee ID to your MyBSWHealth account.

1. [Create a MyBSWHealth account](#) (if needed)
2. [Sign into your MyBSWHealth account](#)

Trouble logging in? Complete a [password reset](#) or [username retrieval](#).

From a website browser (not the mobile view or app), click **Settings** from the menu, then select **Linked Accounts and Devices**

3. Find **BSWH Employee** and select **Link Account**

Enter your **BSWH username** and select **Verify and Link**

- If prompted, you may see the Secure Auth process appear. Follow the steps to connect—entering your **BSWH username** and **password**.
- If you are on the BSW network or have recently logged in via Secure Auth, you may not see this step.

When you see the “Success!” screen the process is complete
